EDUCATION

Saigon University (SGU) <i>B.S. Software Engineering</i>	Ho Chi Minh City, Vietnam <i>Expected 2027</i>
--	---

COURSEWORK

Courses: Data Structures & Algorithms, Object-Oriented Programming, Web Application Development, Database Management, Artificial Intelligence.

SKILLS

Languages: Java, Python, JavaScript, HTML, CSS, SQL
Frontend: ReactJS, Next.js, TailwindCSS
Backend & AI: Java Spring Boot, FastAPI, Django, RAG, AI Model Serving (EfficientNet, CNN)
Tools & Design: Git, GitHub, Postman, Figma (UI/UX Design), Leaflet/Google Maps API

PROJECTS

Food Tourism Application <i>ReactJS, Java Spring Boot, Leaflet API</i>	2026
- Developed a full-stack web application dedicated to culinary tourism with GPS integration. - Implemented interactive maps using Leaflet/Google Maps API and built an audio guide feature. - Designed and integrated robust RESTful APIs using Java Spring Boot for backend operations.	
Plant Disease Prediction AI <i>Python, FastAPI, EfficientNet</i>	2026
- Trained a Convolutional Neural Network (EfficientNetV2B3) on Kaggle datasets for high-accuracy plant disease classification. - Deployed the machine learning model and built a serving system via a FastAPI backend.	
Smart Spa Management System <i>ReactJS, FastAPI, AI Integration</i>	2026
- Built a comprehensive booking and scheduling management system for spa operations. - Integrated an AI-powered skin analysis feature to provide automated and personalized treatment recommendations for users.	

EXPERIENCE & ACTIVITIES

Software Engineering Collaborative Projects <i>Team Member / Developer</i>	2025 – Present
Collaborated closely with team members (Khoa, Dai, Bao) to architect and deliver various academic and technical software projects, ensuring effective communication and code integration.	
Freelance UI/UX & Brand Design <i>Designer</i>	2025 – Present
Created brand identities (e.g., Li Gaming, Monogram Lc) and designed modern, user-friendly interface mockups using Figma, focusing on contrast, symmetry, and overall user experience.
